Agenda Item: Discussion Item

Title: Census Review

Recommended Council MOTION:

N/A. No action is taken at a work session.

Administrative or Policy Goal:

To assist in the process for accurate Census counts.

Background:

Kimberly Davis, Data Dissemination Specialist, has informed us that starting January 3, 2022 the Census Bureau will accept CQRs.

1. “Any corrections made will not impact the apportionment counts, redistricting data, or any other 2020 Census data products. They would, however, be used in the Census Bureau’s Population Estimates and other future programs that use 2020 Census data.

Population Estimates Program (PEP) annually utilizes current data on births, deaths, and migration to calculate population change since the most recent decennial census and produce a time series of estimates of population, demographic components of change, and housing units. The annual time series of estimates begins with the most recent decennial census data and extends to the vintage year. <https://www.census.gov/programs-surveys/popest.html>

2. Counting college students - <https://www.census.gov/newsroom/press-releases/2020/2020-college-students.html>
3. I think it will be helpful to understand the 2020 DAS is based on a framework for assessing privacy risk known as differential privacy. <https://www.census.gov/programs-surveys/decennial-census/decade/2020/planning-management/process/disclosure-avoidance.html>
