I move that the Parks, Tree and Recreation Advisory Board Acknowledge the Laramie Community Recreation Center Membership Update.

---

**Administrative or Policy Goal:**

Update the board on facility performance as we begin to move past the pandemic.

---

**Background Information:**

The Laramie Community Recreation Center was heavily impacted by the pandemic, both financially and by facility usage. We have been closely monitoring performance and adjusting to current conditions. It appears that trends are finally moving more consistently in a positive direction. The attached membership report shows both the number of memberships by type, as well as day pass usage which are increasing.
