

PROCLAMATION

Whereas, disability in no way diminishes the right of individuals to live independently, enjoy self-determination, make choices, contribute to society and experience the economic, political, social, cultural and educational mainstream of American society.

Whereas, family members, friends and members of the community can play a vital role in enhancing the lives of people with disabilities, especially when the family and community are provided with necessary support services; and public and private employers are aware of the capabilities of people with disabilities to be engaged in competitive work in inclusive settings.

Whereas, the goals of this city include providing individuals with disabilities the opportunities and support to make informed choices and decisions; live in homes and communities where they can exercise their full rights and responsibilities as citizens; pursue meaningful and productive lives; contribute to their family, community, state and nation; have interdependent friendships and relationships with others; and achieve full inclusion in society.

Whereas, thousands in Wyoming face challenges with disabilities daily.

Whereas, the month of March has been designated as “Disability Awareness Month” to celebrate and recognize disabled individuals and promote awareness.
