Subject: Hoping to extend days and hours of "Open Container" in Downtown Laramie.

[External]

Dear Members of Laramie City Council,

I understand that you will entertain a resolution to continue the Downtown Open Container policy that has been adopted the last two years at the upcoming City Council meeting on April 19, 2022. May I first share with you that I am very grateful and applaud you for adopting this policy the last two years. It has been very well received by both customers and liquor license holders. Thank you!

I am writing today to request a couple updates to the policy, please. This request stems from both customer comments and opinions shared by other license holders at our bi-annual Tavern Meetings hosted by the City.

First, please adopt to the policy that the Open Container be allowed seven days a week as opposed to the current Thursday through Saturday only. This would allow for the many visitors to our town in the warmer months from all over the United States and other countries that are here at various times of the week to enjoy our outside Downtown as well as provide more opportunities for the sales for Tavern Owners.

Additionally, please adopt to the policy a change in hours of Open Container to 11:00am to 12:00am, midnight. Again, this would allow for more folks to enjoy the outside Downtown and increase revenues (and Sales Tax) for the Tavern Owners.

Thank you so much for your consideration of my suggestions. I would greatly appreciate your input and questions should you have any, as well as an amendment to the Resolution for Open Container that you entertain on April 19, 2022.

Warm Regards,
John Guerin, Downtown Laramie business and property owner
