

**NORTH AMERICAN WETLANDS CONSERVATION ACT PROPOSAL
PARTNER CONTRIBUTION STATEMENT**

What is the title of the proposal that you are contributing to?

Wyobraska Wetlands

What is the name of your organization (private landowners/individuals indicate “Private”)?

City of Laramie

When will you make the contribution?

A portion of our contribution has been made and the other portion will be made at the time of construction.

What is the value of your contribution and how did you determine the value? Does the contribution have a non-Federal origin? If this is based on a fund-raising event or other future action, if that future action fails, will you still provide the contribution amount?

The City of Laramie will contribute \$40,000 of eligible old and new cash match funds to the Pioneer Pasture Project. Our contribution is secure and non-federal in origin.

What long-term migratory bird and wetlands conservation work will the contribution cover?

Funds will be used to restore seasonal shallow water wetland habitat on the Pioneer Pasture, located directly adjacent to the Laramie River. Improved control of irrigation water, precipitation, and high flows from the river will restore approximately 315 acres of seasonal, shallow water wetlands and directly adjacent uplands that will benefit waterfowl and other waterbirds that frequent that Laramie Plains.

Does the proposal correctly describe your contribution, especially the amount?

Yes

If applicable to the proposal, is your organization competent to hold title to, and manage, land acquired with grant funds and are you willing to apply a Notice of Grant Agreement or other recordable document to the property?

N/A

Please confirm that your contribution has not been used to meet any other federal programs match or cost share requirements.

The City of Laramie’s contributions are non-federal in origin and have not been used to meet any other federal programs match or cost share requirements.

Will the project benefit tribal hunting and fishing treaty rights and if so, how? No

Do you have any additional comments? No
