Re: Request of Public Participation Plan – Former Amoco Refinery, Laramie, Wyoming

Mr. Esch,

In accordance with the Public Notice of Voluntary Cleanup in the Laramie Boomerang on May 5, 2019, and pursuant to W.S. § 35-11-1604, please consider this a request on behalf of the City of Laramie to develop a public participation plan.

As City Manager, I am authorized to act on behalf of the residents of the City of Laramie in making this request. In addition, the Governing Body is scheduled to consider a mirror resolution on May 28, 2019 that will reinforce the desire of the City to develop a public participation plan. I will forward that resolution upon adoption by the governing body.

We appreciate the efforts of BP Products North America, Inc. and the Wyoming Department of Environmental Quality towards the remediation of this site. The City of Laramie anticipates a successful remediation plan leading towards this site returning to a productive use for our residents.

Sincerely,

Janine Jordan
City Manager
City of Laramie
