

Reportable LPD Calls at Liquor License Establishments - Compiled 3/16/2021

Incidents below pertain to point system violations and total number of reportable incidents responded to by LPD officers. Information listed below is compiled from documents "Alcoholic Beverage Violation Points Assessment Report", "Raw Data 010120-11020", and "Raw Data 111020-123120".

While some calls for service at these locations might indicate problems associated with the location, other calls may have been initiated by staff at the location (for example staff might have called in a fight, which is proactive, or they might have reported the use of a false ID), and other calls for service may be associated with the location by an officer (for example, a DUI may have been stopped in the parking lot of the Alibi, so it becomes associated with the address).

Location	Point System Violations	Total Reports
