### **Purpose of the Discussion**

The December 12th meeting will focus on reviewing and considering updates to the International Building Code that could better support contractors working in Laramie. These updates may involve areas where local amendments to the IBC could improve clarity, streamline processes, or reduce unnecessary barriers.

To ensure City staff can come prepared with meaningful draft revisions, we are requesting contractor input in advance through a short online survey.

### **How You Can Provide Input**

Please use the survey to share:

- **Specific sections of the code** that you believe should be considered for revision—whether to improve clarity, enhance safety, reduce permitting or construction timelines, or create opportunities for cost savings.
- **Proposed language changes** or general guidance on the types of updates you would like the City to explore.

If you have comments on multiple code sections, you may submit the form multiple times.

Your input is essential in shaping code changes that reflect real-world conditions and support efficient, safe construction in our community. We appreciate your time and expertise.

Thank you,
