

Community Resources Guide

(Albany County, WY and Surrounding Areas)

A reference guide of nonprofit and government resources available in Laramie, WY (Albany County) and many throughout the surrounding region including Cheyenne (Laramie County), Rawlins (Carbon County), and Fort Collins, CO.

Print Date: February 4, 2026

The Laramie Soup Kitchen in consultation with several area nonprofits developed this Guide in the hopes that all organizations and businesses offering assistance to those in need would adopt & distribute this resource. Currently it is being sent to ~175 agency contacts!

Please confirm your agency name is included in every category for which you offer services and that your agency description is correct in the alphabetical listing that follows.

To maintain the most accurate information, a revised version will be sent monthly. We encourage you, then, to only print enough copies for distribution this month and replace any remaining copies once the revised file is sent.

- **Booklet** Version: Designed to be printed as a booklet, just remember to select "flip on short edge" in your duplex print settings, which is not the typical default for printing on both sides of the paper.
- **Sequential** Version: To print for a 3-ring-binder or to post electronically. Print one-sided or "flip on long edge" if you'd prefer to print on both sides of the paper (recommended).

While the maps are in color, they are reasonably legible if printed black/white.

To submit revisions/additions or join the distribution list, email Resources@LaramieSoupKitchen.org by the 25th of each month. Note: This email is only checked toward the end of each month.

Full Map of Laramie bike routes. Each letter shows a specific area of town’s bike trails and thoroughfares.

TRAFFIC LAWS

In Wyoming, a person riding a bicycle has all the rights and responsibilities as a motor vehicle driver. Obey all signs, lane markings and traffic control devices.

Stop at stop signs and red lights. Yield to pedestrians. The posted speed limit should be obeyed by all roadway users.

Keep at least one hand on the handlebars at all times.

Persons riding bicycles upon a roadway shall not ride more than two abreast except on paths or lanes of roadways set aside for the use of bicycles.

Avoid bicycling while under the influence of alcohol or controlled substances. Violations are the same for cyclists and motorists.

Every person operating a bicycle upon a roadway shall ride as near to the right side of the roadway as practicable (or safe).

Bicycling on sidewalks is prohibited except where the sidewalk is part of a designated and marked bicycle path.

A front white light (emitting >500') and rear red reflector attached to the bicycle are required when bicycling at night.

Every bicycle shall be equipped with a brake which will enable the operator to make the braked wheels skid on dry, level, clean pavement.

Laramie Bicycling Information

TIPS FOR THE ROAD

Bright, reflective clothing increases visibility. Use a helmet to protect your brain! Your helmet should be snug but not tight. It should sit level on your head (not tilted back) with the front edge no more a width of approximately 2 fingers above your eyebrows.

Be aware of low angle sun during fall and spring as motorists may not see you.

Use hand signals to let pedestrians, cyclists and drivers know your intentions. Make eye contact with motorists to make sure they are aware of your presence.

Take the full travel lane if the road is too narrow for motorists to pass. Avoid weaving around parked cars. Riding predictably increases safety for all roadway users.

Be aware of your surroundings. Avoid using earphones, texting or talking on a cell phone while riding.

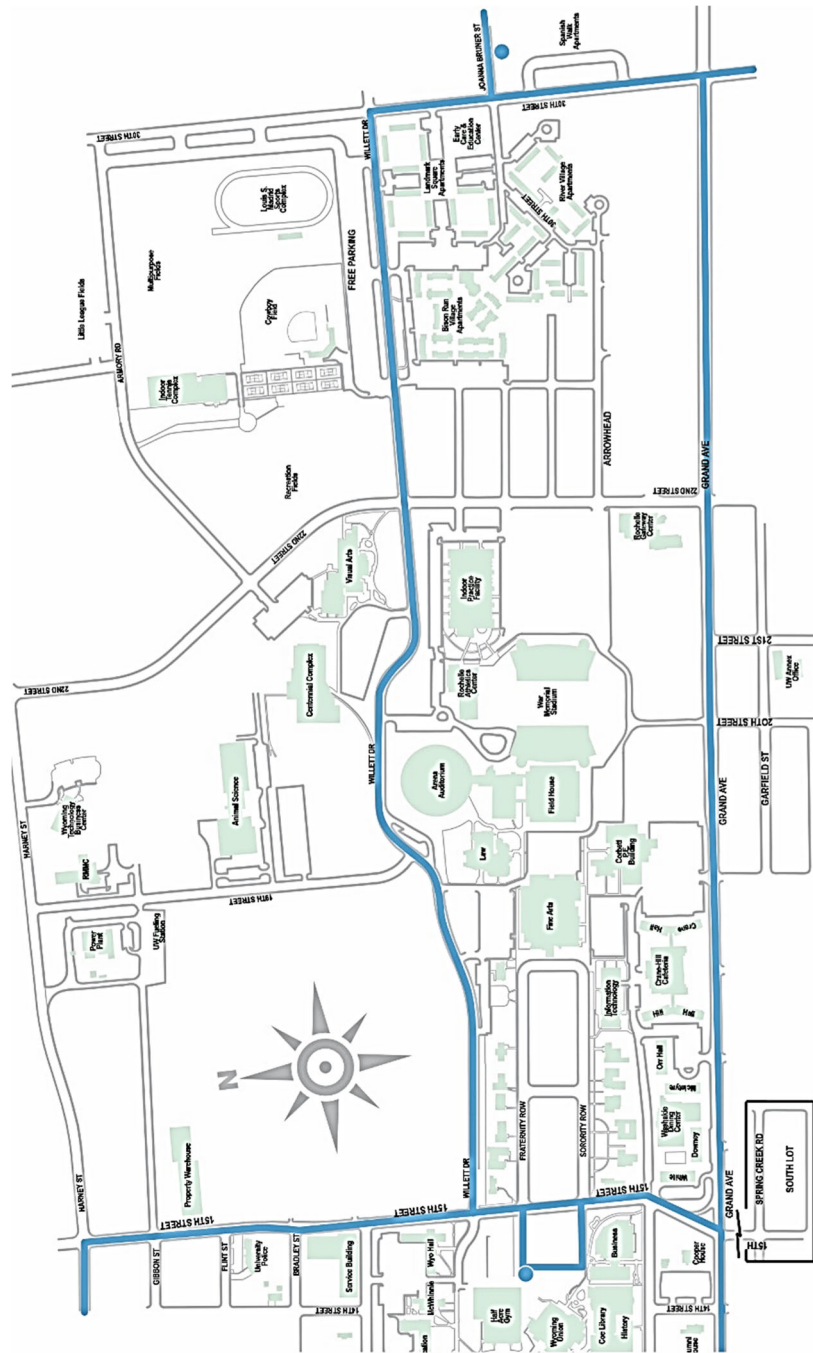

"Sharrows" (shared roadway markings) are placed on roadways that are links in the bicycling network. They indicate where bicyclists can ride safely and alert motorists to the presence of bicyclists.

When biking in a park or shared use path, be mindful of other path users. Paths are designed for low speed use. Stay to the right when using a path. Pass on the left and use an audible warning when passing. Ride single file during congested conditions.

Cross railroad tracks at a 90° angle (perpendicular). Tracks can be slippery when wet. Ride around storm and sewer gratings.

Securely lock your bike with a U-lock or cable lock. Secure detachable items and leave your bike where others can keep an eye on it.

Bikes operated or parked on UW property are required to have a \$5 permit, which can be acquired through the UW Police Department.
