CONTRACTOR LICENSE APPLICATION

Complete, sign and date the attached Contractor License Application. Note: In the Certified Supervisor section, the Master or Supervisor of record will need to sign and date. In the Certification section the applicant will need to sign and date.

It is important that you are aware of the distinction between the **license** and the **certificate of qualification**. A license holder may be an individual, business, or corporation who is responsible for the work covered by the license. The certificate of qualification holder is an individual, either the license holder or an employee, who is responsible for overseeing any work in progress and who serves as the primary contact between the City and the license holder. Every license holder must be represented always by a person holding a current City of Laramie master or supervisor certificate of qualification.

The purpose of this concept is to ensure that a qualified individual will be providing on-site supervision during all phases of construction. As a potential license holder, you should be aware that the certificate holder's failure to provide personal supervision in accordance with the requirements outlined by the Laramie Municipal Code can be grounds for suspension of a license. You must notify the City within **ten (10)** days if the designated certificate holder leaves your employ.

****All licenses run from January 1 through December 31 of each calendar year. Failure to renew by December 31 will result in the need for a new license and pay new license fee.**

**In addition to license fees, an appropriate business location, telephone number (answered during normal business hours), Certificate of Insurance with the City of Laramie listed as Certificate Holder, in the amount of \$500,000.00 combined single limit coverage with the City receiving 20 days notice in the event of cancellation and proof of workers' compensation coverage (State of Wyoming Workers Compensation Certificate of Good Standing), must be provided with your application.

Upon issuance of a license, applicants should be familiar with all-applicable codes and ordinances and be prepared to comply with them.

<u>License Classification</u>	<u>New License Fee</u>	<u>Renewal Fee</u>
